

DYNAMIC DUO

Saddle up for the most exciting VR adventure!

This attendant free VR experience provides world class motion and now four unique experiences with the world's most popular cartoon.

Delivery Dash: Jump in the front seat to drive as Patrick Star through Bikini Bottom and saddle up in the back seat to flip Krabby Patties to hungry citizens as SpongeBob SquarePants.

Jellyfish Drive: Take a drive through Jellyfish Fields in the newest adventure for SpongeBob SquarePants Dynamic Duo. Steer the boat as Patrick Star while collecting as much Jelly as possible or ride in the back as SpongeBob casting your net to capture all the Jellyfish. New characters, new scenery and a whole new experience!

Front player must lean left and right to help Patrick navigate through the landscapes, while the back player uses the controller to launch patties or capture jellyfish.

DYNAMIC DUO

JELLYFISH DRIVE

It's Jellyfishing season!

Sandy has invented a new gadget to bring the next level of jellyfishing to Bikini Bottom- the Jelly-mobile! She invites SpongeBob and Patrick to try it out in a friendly jellyfishing competition. Patrick, as the driver, must navigate Jellyfish Fields, avoiding rocks and tumbling sea urchins while collecting jelly. SpongeBob is on the Net Launcher, which he uses to catch jellyfish.

Animated sequences and events bring the environments to life as players set off across Jellyfish Fields and navigate through recognizable environments like the Mermalair, The Flying Dutchman's Ship, and other popular scenes from the show.

UNATTENDED VR!

NEW EXPERIENCE COMING SOON!

Two Player Game: Play as 1 player- either front or back seat. A different experience in each position.

High replayability: The driving station is player controlled. Whether you are flipping burgers (back seat) or driving (front seat), the game is not one track repeating itself. Create your own path and discover a new adventure with every play!

Check the leaderboard and beat the high score!

Environmental Factors: Wind is replicated by two fans in front and in back. Actuators expand and contract 6 inches to create realistic motion as the players ride.
