

BEVMAX™ GUIDELINES

BevMax is capable of vending a wide variety of package types. Below are guidelines. For proper vend reliability, package specifications and samples should be provided.

PRODUCT WIDTH

- Standard Product Diameter Range = 2.25" - 2.90" (5.715 cm - 7.417 cm) Products inside this range should vend without a shim.
- Minimum Product Diameter Range = 2.085" (5.296 cm) Products close to the minimum diameter may require a shim.
- Maximum Product Diameter Range = 2.90" (7.417 cm) Products over maximum diameter will not vend.

PRODUCT HEIGHT

Maximum Height with current tray spacing = 9.60" (24.38 cm) Products above 9.60" need custom tray rails. Products above 10" must be tested.
