

VITRO X1

Innovative design for quality coffee

The **VITRO X1** is a compact coffee machine with a sleek, contemporary look that has been developed with attention to detail and the finest finishes.

The separate hot water spout allows the consumer to prepare delicate teas and infusions, while its design complements any area of an office, hotel, leisure centre or convenience store with a consumption of up to 100 cups per day.

Easy to use selection panel

The 12-selection touch panel offers a wide variety of high-quality coffees.

Variable brewing unit

The variable brewing unit enables two different brewing methods in a single machine: espresso and fresh brew coffee. Furthermore, the coffee strength and size can be adjusted thereby enabling a perfect customization of each beverage.

Illuminated dispensing area

The illuminated product dispensing area enhances the user experience and facilitates a perfect presentation of the beverages.

Easy-access hoppers

One or two 4.85 lb bean hoppers and up to two hoppers for chocolate or other soluble ingredients. Product can be directly and easily loaded from the top, without opening the door.

Optional

MIA FreshMilk System

Our innovative micro-injected air (MIA) solution creates a consistent, velvety texture without diluting the taste with steam. Provides warm or cold milk and milk foam with the consistency to suit the consumer's taste.

Distance Selection

Touch-free beverage selection with a distance of 0.8 inches from the display for added safety and hygiene

Accessories adapted to your business model

With a wide range of accessories, the Vitro X1 can be adapted to suit any business model, with different payment modules, stands and coolers available to complement the machine.
