# PICKLEBALL SIMULATOR

## Phygital Gaming

The Playkout game suite includes 12+ performance and arcade-style game with tournament, single-player and two-player modes.

## Training

Enhance your game with multiple skill-level training games to hone accuracy and placement for dinks, drives, third-shot drops, and serves.

## Fitness

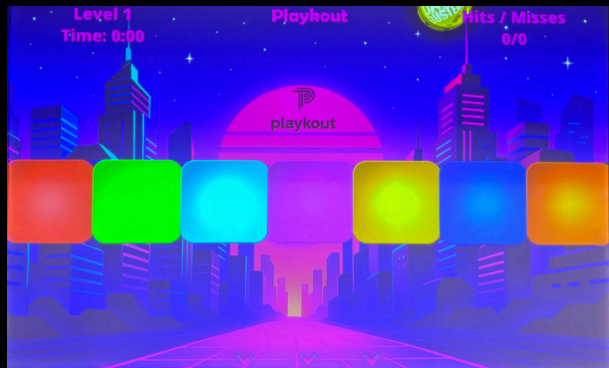

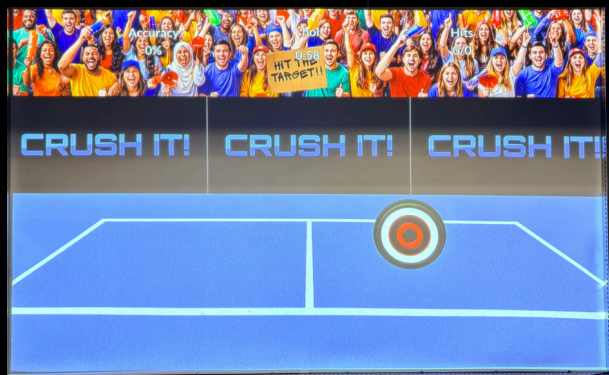

The Playkout system also includes a variety of pickleball-specific HIIT-style workout classes that are designed to increase both body strength and cardio.

# playkout

Includes a variety of performance and arcade-style games

System requires only a standard 120v outlet and internet.

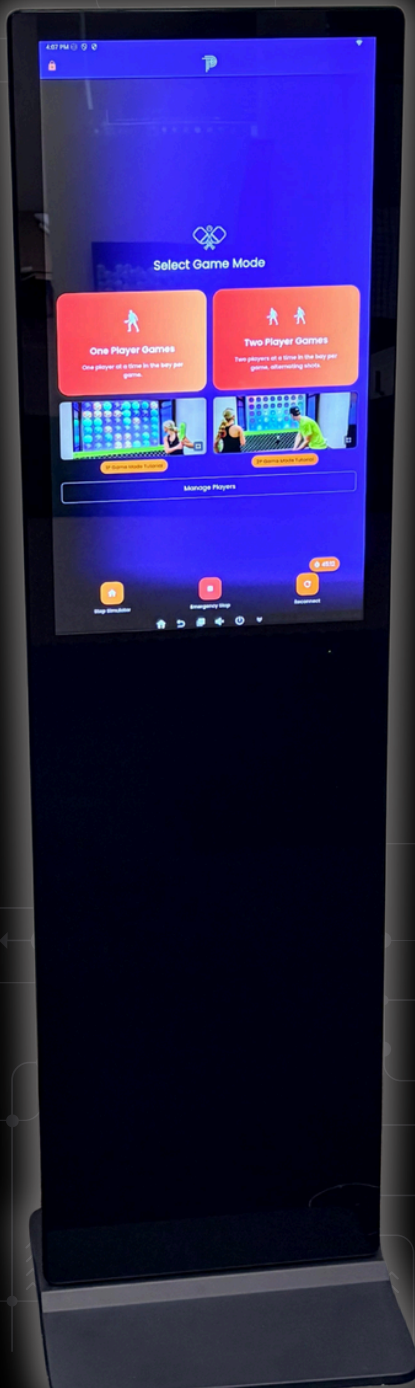

Installation takes (1) day with no heavy equipment needed.

Remote monitoring and troubleshooting by the Playkout team ensures system is functioning properly without the need for hands-on assistance onsite.

# playkout

## Large kiosk option provides an eye-catching gaming interface

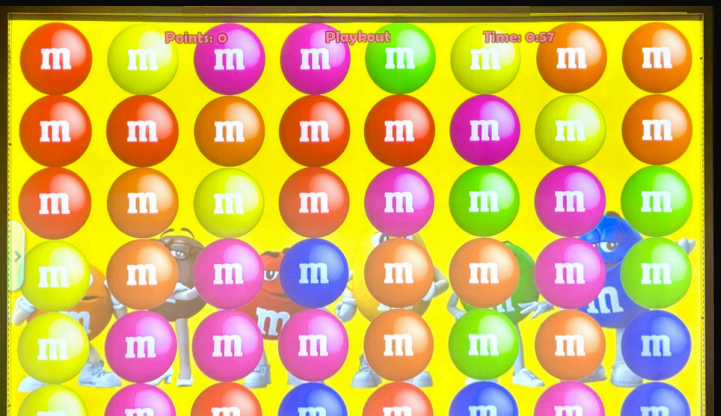

Now introducing our 32-inch screen Estrella kiosk gaming interface where users can view videos of game modes, enter player names, and select games.

The Estrella kiosk runs on the Rockchip<sup>®</sup> RK3576 Android system, offering 1920 x 1080 resolution.

Kiosk comes in black finish with add-on options for full wrap or custom branding on the system cabinet.

# Customized games for facility or sponsor branding
