Pull, launch and win with Prize Mart! This exciting 2-player prize game incorporates the classic pinball-style plunger gameplay to the modern arcade with a twist. Players must skilfully pull back and release the plunger to launch the ball towards a series of illuminated zones, with different coloured holes offering different prize tiers. Once a ball lands in a prize zone, a new prize is added to the playfield, pushing the existing prizes towards the winning zone. Simple to pick up but packed with excitement, every shot gives players a chance to land the perfect target and walk away with a great prize.
