YOUR TURNKEY BUNDLED SOLUTION

POWERED BY SANDSTAR

AVS AI SMART COOLERS

EVERYTHING YOU NEED IN ONE PLACE.

CoolSmart AI Market

The CoolSmart Cooler combines cutting-edge cooler features with innovative connectivity to provide an enhanced experience to both customers and operators. It's tech-ready and comes pre-wired, with easy upgrades to make your cooler future-proof.

- Advanced Computer Vision AI technology utilizes 4 cameras to track purchases and greatly reduce theft for your business.
- Dedicated U.S. based Customer Support provides ongoing technical training to ensure your long-term success.
- Frictionless Payment Systems deliver efficient transactions paired with robust back-end inventory management for business growth.
- Versatile merchandising options, including trays and pushers, allow you to easily showcase your inventory and maximize profits.
- High speed ethernet and 4G wireless connectivity options allow you to boost your signal and your revenue.
