

Just like arcade
basketball.
Only Better.

We've reinvented arcade basketball to offer an innovative and rewarding game experience that guests just can't seem to resist. The HYPERSHoot Tunnel tracks the flight of the ball with reactive light trails, and the amusing commentary makes every throw fun and rewarding. Players are awarded extra points for scoring in quick succession, increasing the fun and competitive game play aspect.

“The game is a stunner, and it’s a nice visual to be able to change the LED colors. The speakers produce high-quality, robust sound. Overall, HYPERshoot is a winner!”

Ken Harkness, General Manager - Mulligan Family Fun Center

Up to 8 Operator Controlled Color Configurations
