

NEW!

ICEBLU FREEZER

The IceBlu Freezer is ISO9001:2015 certified and is manufactured in North America with the highest quality components and standards offering your maximum performance for years to come.

FEATURES & BENEFITS

1. Drum Spiral Condenser

Maximizes air-flow over the compressor, reduces energy consumption and is non-clogging.

2. Variable Speed Compressors

Offers longer life span AND lower lifetime cost of ownership. Pulls down almost 2X faster than competitive units.

3. Unique One-of-a-Kind Dual Glycol Bottle

Temperature probes offering better representation of core product temperature (vs. air temperature probes) producing less variance as a result.

4. Maximum Capacity

Our freezer offers 28 Cubic Feet of usable interior space. That's 20% more than the competition.

5. Premium Warranty

3/3/5 (3 Years Parts/3 Years Labor/5 Years on the compressor)

6. Intelli-Lock System

Designed to automatically lock if the temp within the cabinet rises above NAMA standard of 0°F for 30 minutes.

7. Energy Efficient Digital Controller

Featuring visible/audible product protection alarm. ICEBLU is factory preset for -10°F.

8. Energy Efficient Full LED Lighting System

Will make your products sparkle.

Dimensions: 30.5"W x 31"D x 78"H
