

All-in-One Cooler

AVS Companies is proud to offer the newly redesigned, industry leading "technology-enabled" cooler market solution for your customers, by combining cutting-edge cooler features with innovative connectivity.

● Lowest Ownership Cost

- Larger product capacity = larger sales
- CoolSmart has up to 40% more capacity than other comparable coolers
- It can fit 6 shelves with 28 cubic feet of space

● Flexible Security

- Programmable lock and a self-closing hinge
- Cat5 optimized door and cable management system help streamline connectivity
- Product flexibility built-in for use as a beverage, food, or combo cooler

● Future Proof

- Easy upgradability from cooler to cooler market
- CoolSmart comes pre-wired for easy installation of cooler market credit card readers
- Designed for multiple communication options including 4G Wireless, Ethernet or Wi-Fi

● Easy Maintenance

- Up to 8x lower service costs on refrigeration
- Removable "slide in - slide out" cassette refrigeration deck provides less downtime
- Finless condenser coil for easy cleaning
- Dedicated on-site support from national repair service network

Experience the future of vending
