# TIPS TO MANAGE YOUR WIN RATE & OPTIMIZE PROFITABILITY!

Find A Key and Find A Key Deluxe offer a variety of enhanced claw settings that will help you maximize your return as well as create an exceptional customer experience!

## TIP #1

### JUMBO EGGS, JUMBO PRIZES, JUMBO PROFITS!

Create a premium experience by filling your prize doors with high value items to increase play and profits. Higher value prizes = higher cost per play. Reminder: Perceived value is often higher than the actual value of the prize!

## TIP #2

### KNOW YOUR CUSTOMER

What's the demographic of your customer? Are they mostly casual players or returning players? Survey your customers to learn about their experience and observe how they interact with your game! All of this will help you identify the win rate that will be most successful for your players.

## TIP #3

### CUSTOMIZE YOUR CLAW SETTINGS!

CLICK OR  
SCAN ME!

Starting point for claw settings:  
Grab vt 40/42 - Carry vt 38V - Break vt 12V

Adjust, test, and customize claw settings to work for you! For a deep dive into how to fully maximize claw settings, check out pages 26-27 of the Game Operating Manual - V1.91.
