**Five Times The
Ticket Fun!**

**Winner
every
time**

High Five Tickets is the latest addition to the High Five collection. With its groundbreaking five-claw mechanism controlled by a single joystick, this game redefines the ticket crane category. Players get one chance to grab as many balls as possible, which are then dropped into the win chute. Using RFID technology, the ticket value is instantly calculated. Four different coloured balls each carry their own ticket value, while thrilling bonus multipliers are awarded based on the number of balls collected.
