WE MAKE THE BENCH THE BEST PLACE IN SPORTS

Subsoccer Arcade is intuitive, fast-paced, and fun. Each 90-second seated match is ideal for keeping families and friends entertained and encouraging them to stay longer.

Once the game is credited, the table's playing surface turns transparent, the timer starts, and the match kicks off! When the clock counts down to zero, the surface fades back to opaque, ready for the next game.

DIMENSIONS
D: 234cm | 92"
W: 89cm | 35"
H: 85cm | 33"

Engineered with robust materials and rounded edges, it excels in both high-traffic areas and compact spaces like hotel lobbies, malls, service stations, arcades, FECs, bowling centres, and social entertainment venues. Cashless payments make joining a game effortless, while bold branding opportunities on seat backs, side panels, and even the playfield unlock extra revenue streams.
